

Where the Conversion Leaks Are

allbirds.com · CRO Recommendations · August 2026

The site's primary conversion mechanism is guiding visitors from the hero to a specific product category, but the hero's dual CTAs and vague copy dilute focus, while hidden shipping costs and lack of social proof on product pages undermine trust and increase friction.

Prioritised findings

#	Finding	Severity	Effort	PXL
1	Competing primary CTAs The hero presents two equally prominent CTAs that split user focus and delay the path to a single product...	Urgent	Medium	5/10
2	Vague hero copy The hero headline is a brand slogan, not a value proposition, failing to address visitor intent.	Urgent	Low	5/10
3	No social proof in hero Hero lacks trust signals, causing hesitation for first-time visitors.	Urgent	Medium	5/10
4	Free shipping threshold hidden Free shipping threshold not in hero, causing expectation mismatch.	Urgent	Medium	5/10
5	Mega-menu choice overload Mega-menu has 20+ items causing choice overload.	Urgent	Medium	5/10
6	Hidden shipping threshold Product page lacks shipping cost or threshold info, causing surprise at checkout and increasing abandonment.	Urgent	Medium	4/10
7	No visible reviews on product page Product page lacks visible reviews, reducing buyer confidence.	Urgent	Medium	4/10
8	Out-of-stock notification without email capture Get Notified CTA may not capture email, missing lead gen.	Urgent	Medium	4/10
9	Email-only signup without incentive Email signup lacks incentive, reducing opt-in rates.	Urgent	Medium	3/10
10	Controls without accessible names 41 unlabelled controls hurt accessibility and usability.	Urgent	Low	2/10

How to read this

Findings marked **verified** were measured directly and are reproducible. Everything else is a hypothesis derived from inspecting the live pages, which is why the PXL evidence questions score zero for those items. Sized opportunities describe the prize if a change works, not expected revenue: roughly 10–30% of A/B tests produce a significant win, and winners tend to overstate their true effect.
